

Volunteers wanted:

We are always looking for volunteers for our Advisory Committees. Advisory Committees provide input to programs in areas such as curriculum advisement, equipment and facilities, community public relations, help with student projects (i.e. mock interviews, etc.) and provide teacher aid (i.e. guest speakers, etc.). Whether you are retired in a technical area or currently working, whether you're a parent of a student or a former student, your input is greatly appreciated. If you are interested in volunteering on any of our program advisory committees, please contact the program instructor to find out more information.
